Neighbor Palette

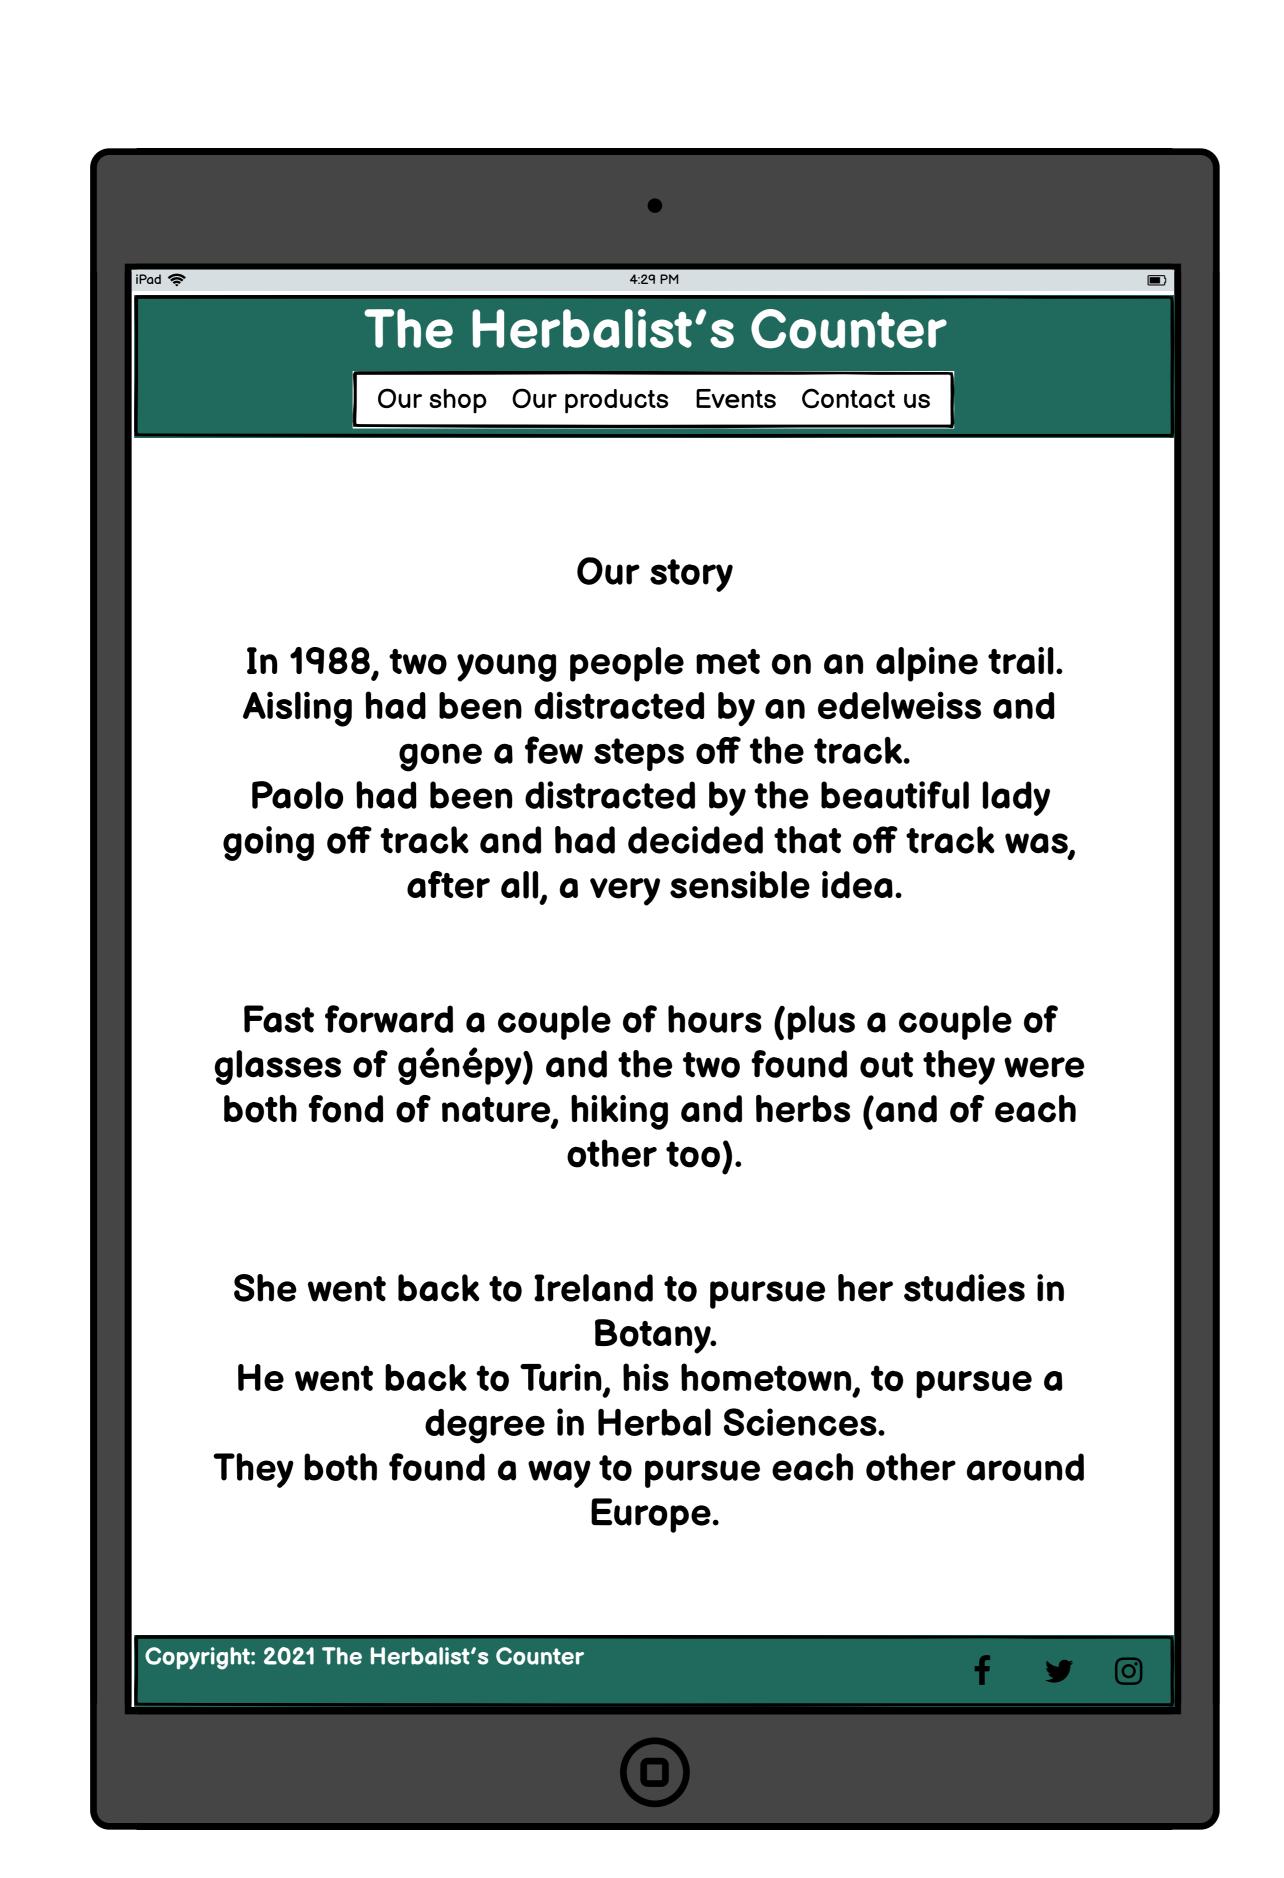

Some quick notes:

- 1) The colour palette will be the same throughout the whole website to ensure a consistent layout and appropriate UI/UX. In particular, the colour #206A5D will be used for the header and the footer, whereas the shop logo and navigation buttons will be coloured in white to ensure readability.
- 2) The shop logo and each section's title will be styled with the "Great Vibes" font, whereas the navigation buttons, each sections' main text and the copyright line will be styled with the Montserrat font.
- 3) The background image will vary from section to section and will be darkened to improve accessibility.
